WSJ PLANS OPTIONS QUOTE TOOL FOR RETAIL INVESTORS.

Wall Street Letter , p 7(1)

August 31 , 1998

ISSN: 0277-4992

Language: English **Record Type:** Fulltext

Document Type: Newsletter ; Professional Trade

Word Count: 327

Text:

The Wall Street Journal Interactive Edition is developing a subscriber interface that will attempt to simplify for retail investors the symbol and jargon-laden process of getting price quotes for listed options, according to Neil Budde, v.p. and editor. Many options industry professionals welcomed news of the WSJIE project, noting that it will help remove a major impediment for some retail investors to taking part in the options market.

Currently, investors can get options quotes through a broker or certain financial Web sites, but must enter a complicated and often confusing code for each **quote**. This usually includes the first two letters of the **underlying stock symbol**, plus subsequent letters that correspond with the month the **option** expires and the **option's** strike price. Additionally, **stock** splits, mergers and spinoffs often result in changes in the symbols used to get quotes, said Paul Stevens, president of the Options Clearing Corp. Rather than require investors to work through this matrix for every **quote** they want to retrieve, the WSJIE interface will allow users to enter something like "INTC Jan 110 Calls" to get the current price for **options** that give them the right to buy Intel **stock** before the end of January at a price of \$1 10 per share. The WSJIE would have to buy the quotes from the OCC, which clears and settles all U.S. **listed** options trades, but no deal has been set, Stevens said. He would not elaborate on a possible price for the quotes.

The WSJIE is now working to allow subscribers to incorporate options into the portfolios of securities they can preprogram and track online, at www.wsj.com. Once the options interface is up and running, subscribers will be able to punch up quotes for any option on demand, Budde said. He could not provide a date for the rollout and declined further comment, saying the plan is still in its infancy. Currently, the WSJIE offers end-of-day options prices to subscribers.
